

# **WE KIDS ROCK!**

## **Classroom Suggestions**

- 1. The first classroom suggestion is for you and your child to have fun! Let your hair down and sing, clap, jump up and down and have a great time (there are no grades). If you are having fun your children will also.**
- 2. We do get complaints sometimes from parents when there is a lot of talking during class. While we know that it's also fun to chat with your friends in class it's not necessarily fun for everyone so please, while in class, focus on your children and not the mom or dad sitting next to you.**
- 3. Please refrain from bringing food or toys into the classroom. We have plenty of props and activities to keep you and your child engaged. If your child brings a big shiny fire truck into class all of the other kids are going to want it and before you know it... you get the picture.**
- 4. The kids do not have to sit on your lap the whole class. They can move around the room, dance and jump and just have fun. The only thing we don't want them to do is run. If your child is running please ask him/her to stop. This is for everyone's safety.**
- 5. Please do not bring sick children to class. We allow two make ups per session. We do not give refunds or credits for classes missed after the first week of a session so please try and make up your missed classes.**
